

Ekaterina Doroshenko

UX/UI Designer

Thailand • ekat.doroshenko5@gmail.com • [Telegram](#)

Product Designer with strong expertise in visual design. Over 3 years of experience in UX/UI, web and app combined. Expertise in sport-tech, e-commerce, health, service and finance services.

Experience

Mobile app for a football club Locomotive, UX/UI designer

JANUARY 2025 - CURRENT

I designed a mobile app from scratch, created and maintained a design system in line with the club's brand book, conducted UX testing, competitive analysis, handed it over to development, and conducted a design review. The app is still in development.

LLC IT Prime, UX/UI designer

MARCH 2024 - DECEMBER 2024

I developed website and web page interface layouts, conducted research into competitor design solutions, adapted designs for different platforms and devices, developed prototypes and design concepts, and created clickable prototypes of services.

Freelance, UX/UI designer

2023 - CURRENT

Developed website and mobile app architecture in accordance with the technical specifications, taking into account ease of navigation and placement of key elements, conducted competitor analysis, compiled and maintain UI-kits and design systems, designed feedback forms and user accounts, prototypes, and design concepts.

Wellcoach (Service for trainers, nutritionists and their clients), UX/UI designer

AUGUST 2023 - MARCH 2024

As part of my work on a service for trainers, dietitians, and nutritionists, as well as their clients, I developed scenarios, formed hypotheses, designed the interface, created and maintained a UI kit, developed a mobile version of the web application and an adaptive desktop version for MPV, conducted interviews, and tested users using clickable prototypes.
